

Bill Meanwell founded International School of Pedorthics after nearly thirty years of experience in the field of pedorthics. In addition to owning and operating his own pedorthic labs, he was also the Director of Pedorthics at Oklahoma State University where he created a 1st class orthotics lab.

Board member, Vice President and President of PFOLA (Prescription Foot Orthotic Laboratory Association)

Consultant for six national orthotic labs regarding AOMS (Automated Orthotic Manufacturing System)

Teaching Pedorthic at OSU-Okmulgee school of Pedorthics since 1999

PFA Board member 200

NCOPE Education committee member

Worked with the World Elite Athletic community fitting and fabricating to their special needs. During the Olympic games in 2004 Athens Olympics

I've opened ZYGO custom orthoses lab in Charlottesville, VA. Training a team of skilled technicians to fabricate orthotics with the best and most up to date techniques available.

The art of balance.

The art of balance meets the state of the art orthoses

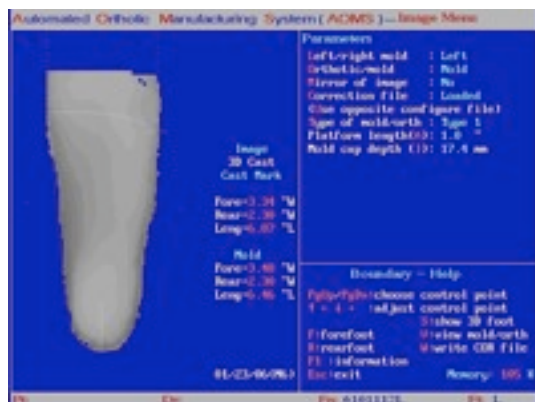

## Step 1 send your casts to ZYGO

## Step 2 Orthotic selection

ZYGO scans your casts

ZYGO takes the guess work away by using your data to modify the cast.
